

Samundra Dhakal

Profile

I am last year graduated student looking towards professional experience or higher education who have a set of skillful knowledge and wants to use it in proper places.

Education

Bachelor in Engineering, Information Technology, Centria University Of Applied Science, Kokkola

September 2014 — October 2018

My education is specially about the knowledge of programming where i learned more about coding practice in c, c#, java script, PHP and others using the different platforms. Also, I learned about networking like Cisco introduction and routing and switching both.
